DOING GOOD WORK.

THE ADVERTISING COMMITTEE OF THE MERCHANTS EXCHANGE.

To Advertise Alameda County Throughout the East with Literature and Maps.

Doing Good Work.

The Alameda county delegation of the State Development Association met Friday night in conjunction with the Merchants' Association, with W. H. Weilbye of the former organization presiding. It was a largely attended and very enthusiastic meeting, and gives indication that substantial results are to follow their efforts, Messrs. Street, Forsythe and Buckingham of the State Association were present and made addresses.

The State Development Committee is composed of 200 prominent public spirited men, representing every county in the State. The object of the Committee is to assist in the development of the various resources of the entire State, and in establishing a market for its products; to encourage immigration of well-to-do people, and their settlement in good homes and profitable business; to increase travel from the East and Europe, and to improve the facilities for entertaining tourists in all sections of the State.

To accomplish their object the association is having 1,500,000 fine half-toned topographical climatic maps of the State on the backs of which are to be printed concise, accurate and full information concerning the various counties of the State. The plan is for each county to pay for as many of these maps as they desire. This number is then printed with the facts of that county along with a fine half-tone colored map of the county. These will be mailed to Eastern addresses direct as furnished by the county delegations.

After making this explanation Chairman Weilbye of the county delegation said he believed it the best plan yet devised to advertise the county and would subscribe $100 towards the fund. G. L. Fish, J. A. Britton and J. A. Remmel of the committee, followed his example. and C. R. Yates placed himself down for $50. The paper will be circulated until sufficient funds are raised to purchase a large number of these maps. It is believed the balance of the committee will certainly do as well or better when it is presented to them.

The maps for Alameda county will be the first issued and will be a sample for the other counties of the State to judge of the value of this plan of advertisement and also the first to be sent broadcast over the East and will naturally attract much attention to this section. Messrs. Weilbye and Calquhoun are preparing the advertising matter for the folders.

Death Of Paul Marony.

Paul Marony, who crossed the plains 1852, and was well known as a stock broker and hotel proprietor in the early [illegible] home, at 1823 Broadway, San Francisco at 1:30 o'clock yesterday afternoon.

From 1864 to 1879 Marony was associated with Peter. Hopkins in the Grand Hotel in San Francisco. He then went to Tucson where he took charge of the Cosmopolitan hotel, returning here in 1886. From that time until 1891 he was a stock broker, which business he forsook to run the Tubbs Hotel in Oakland. Tubbs' Hotel was burned three years ago and the loss seemed to break Mr. Marony's spirit, for since that time he steadily failed in health.

Marony was justly proud of his reputation for honesty and fair dealing. He leaves a widow, three sons and three daughters. One of the latter is the wife of J. A. Thompson, cashier of the Donohoe-Kelly Bank.

Mr. Wilcox, the photo man of Berkeley, got some nice views of the town when the hills were covered with snow. They make a nice picture to send away not only those who have visited Berkeley but to strangers who can see how Berkeley looks about once in every ten years.

Glazing done by Schmitt & Zehner. x

The Crescent Athletic Club of Berkeley is shortly to issue a weekly paper devoted to its interests.

The Young Ladies, Christian Association of the University is preparing an entertainment to be given at Stiles Hall.

Large shipments of cocoanut oil are being made each week from the El Dorado Oil Works of West Berkeley.

People who have not yet reregistered must remember that unless their names are on the Great Register, by the 19th inst or fifteen days before the coming election, they will not be able to vote.

There are lots of seeds to be given away at the State University, if they are called for immediately. Only the cost of packing will be charged.

Mrs. George F. Weeks, wife of the editor of the Bakersfield Californian, one of the best edited papers in California, was visiting Berkeley yesterday.

There is a good deal of work going on in the Mechanical building of the University preparatory to turning on the electricity which is to light up the grounds.

Has the Assessor or his deputies called upon you yet? They are closing in pretty fast and before the month is entirely gone they will have made a call upon all of our citizens.

The Board of Trustees will supply Lorin with 600 feet of fire hose and a hose wagon constructed from designs furnished by the Fire and Water Committee.

Tinware made and repaired at Schmitt & Zehner. x

Some of the people assessed for the work of macadamizing Alcatraz avenue have appealed from the assessment made by the Superintendent of Streets, and the Board of Trustees will hear those interested at its meeting this evening.

The senior class of the Berkeley High School is rehearsing under the direction of Miss Fannie McLean, teacher in English, Mrs. Burton Harrison's comedy, "Two Strings to Her Bow." The play will be a part of the class-day entertainment.

Owing to the death of her father, Reuben Rickard, last Friday in West Australia, Miss Leontine Rickard's marriage to Mr. William Bowditch Fisher will take place privately at the home of the bride in Berkeley on the 11th inst.

Those who worship at First Presbyterian Church in Berkeley will be pleased when the new church edifice is ready for occupancy. The large congregations at this church each Sunday is constantly increasing and the old church is so crowded that it is unpleasant to have to sit through the services owing to the closeness of the building.

Some fine gold specimens were shown in Berkeley yesterday, which were said to be found on the other side of the range back of Grizzly Peak. The gold was contained in float rock. This may cause old miners to prospect that neighborhood a little, and see whether there is not a gold bearing ledge about there somewhere.

The cutting down of the trees in front of the Wilson place, on University avenue will greatly improve the looks of that property. Good shades at intervals along the outer edge of the sidewalk would be far preferable to those being cut down, which have always hidden a very handsome and substantial residence.

Mr. Samuel Heywood and family who have resided in West Berkeley for the past thirty-five years, has removed to his fine new residence on Louisa street near University avenue. His removal was caused by the fact that his children have now arrived at that age, when they are ready for the High school and University, and he desires to live close to these institutions.

It is thought that the China steamship Rio Grande has gone to the bottom with all on board. The steamer is 17 days overdue from this port to Hong Kong. Steamers that have left here since have arrived, and nothing has been seen or heard of the missing steamer since she left here.

LOST HIS WHEEL.

C. T. KERNS' BUGGY BADLY DAMAGED.

Death of Michael O'Keefe at West Berkeley—Robbed of Valuable Diamonds.

Smashed his Buggy.

Yesterday afternoon just as the 1:30 train for San Francisco from Berkeley station, the horse attached to the buggy of Deputy Marshal Kerns, got frightened and commenced to back. He could not be stopped until he had backed into the train which was then moving, striking the platform of the second car, and reducing one of the wheels to kindling wood, and otherwise damaging the buggy. The horse, which was quickly caught was uninjured. Had the train been moving rapidly the damage would have been far greater. As it was Mr. Kerns thinks they were great enough.

Smooth Diamond Theft.

Some light-fingered workers succeeded in robbing Mrs. White of 472 Eighth street at the Seventh and Broadway depot, Oakland, on Saturday evening last at 9 o'clock. They secured three valuable diamond rings valued at nearly $400.

Mrs. White had the rings in her purse, one a large cluster, one a diamond and emerald and the third a marquise ring, and was crowding forward to buy her ticket. She opened her purse in her hand, and at the same moment some one struck her arm and the three rings were jostled out and fell on the floor. At any rate, that is the supposition, for something was heard to fall when her arm was struck. At the same moment the crowd pressed forward, and a young man offered to help her to find the jewels. Some one shouted that the train was coming and there was some confusion, and the lady was crowded away from the ticket office window and the place where the jewels were supposed to have dropped. The lady is positive now that the young man who addressed her knows something about the disappearance of the rings.

The matter has been reported the police.

Sudden Death.

Yesterday morning at about 4 o'clock Michael O'Keefe, who resides with his wife at the corner of Holyoke and Fifth streets, was taken suddenly ill and died before a physician could be summoned. The deceased has been ill for some time, although just before dying he seemed much better. It is thought that he died from bowel trouble and heart failure.

The Coroner will hold an inquest at 4 o'clock this afternoon, upon the body, at which time it will be known what caused the death.

Buried Far Apart.

The bodies of Ed Hack and Diana Pacheco, the Oakland young people who resolved to die together, were buried yesterday. The funeral of Hack took place from Brown's undertaking parlors and the interment was at Mountain View. Only nine persons attended the funeral, these being relatives and friends of the young man. The body of the girl was embalmed and sent to Concord to her former home.

Golden Gate.

Rev. E. H. Hayden, for some years the Baptist minister in charge, is now taking the two or three weeks rest necessary to preparation for beginning labor in his new field near Santa Rosa. He expects to preach his first sermon there in connection with his new pastorate on March 22d.

Mrs. S. E. McNeill has been for some days visiting her sister, Miss Stokes, principal of the school here, and their mother, Mrs. M. A. Stokes.

The teachers of the Bay district school here were somewhat surprised this morning to find that in their absence over night the Board of School Directors had carpeted and furnished in good style the business office of the institution, which has heretofore presented a rather barren and forlorn appearance. The improvement is duly appreciated by the school, and especially by the teachers in charge.

Miss Stokes, the principal of the schools here, has concluded that it is quite well worth while to instruct the children in her charge as to the proper method of exercising the right of suffrage under the Australian ballot, and during this week she will instruct children of all departments under her charge by having them hold and carry out an election, under which all the privileges of the system shall be fully exemplified.

Miss Irwin, who was last week obliged to leave her school room on account of ill health, has now returned to her charge, her illness proving to be of a temporary nature.

T. W. Corder of the Stockyards is at present engaged in putting in a reservoir preparatory to serving his engines with petroleum as fuel, the economy and desirability of which he has become convinced, on investigating the power producing qualities of Southern California petroleum.

Mr. E. D. Lambert of Sutter street who has been for several weeks seriously ill of pneumonia is now improving and seems in a fair way to recover

It has been thought that the National base ore reduction works would resume operations at the close of the present week, but the sudden death of Attorney Frank of San Francisco, who was largely interested in the concern, and whose interests or those of his estate, will have to be consulted, may hinder the immediate opening up of the works.

The Presbyterian Church has just chosen a new board of trustees, as follows: President, Hugh Robinson; Treasurer, Mrs. J. W. Glendenning; Secretary, Miss Anna Eustice; members at large, Mr. Bellamy Said and Mr. Joel Neff.

The Christian Endeavor people here connected with the Presbyterian Church will shortly give a "Hard Times" entertainment here. It is not the purpose of the people interested in this matter to undertake to illustrate the fact that hard times do not exist, but rather to point out methods of enduring present adversities.

[illegible] as an ever obliging public servant in the grocer line, will start for Boston, Mass., her former home, upon a business trip within a few days. She will be absent one and possibly two months.

Taken To The County Jail.

Mrs. E. Willmore, the mother of the boy burglar, and who has been locked up at the City Prison for the past two weeks as an accomplice, was yesterday removed to the County Jail. The police felt releived at the removal, as the woman had the biggest visiting list of any prisoner who has ever been in the City Prison. Her friends were mainly her female church companions and sympathetic women, who have kept the City Prison officials pretty busy with visits to the imprisoned woman. A large number of visitors yesterday were directed to the County Jail.

Straw hats and caps for '96—men's, children's and ladies'—just arrived and offered at low prices at Max Greenhood & Co.'s, Shattuck avenue, opposite Berkeley station. 99

A Musical Treat.

The operetta Snow white, and The Seven Dwarfs, in four scenes, is to be given in Shattuck Hall on Saturday evening, March 14, by a chorus of about thirty of our young folks, assisted by a fine vocal quartette consisting of;

Mrs. Dr. Whiteworth, alto, as..........Queen
Mr. C. R. Morse, tenor, as...........Prince
Mr. Frank Argall, basso, as Carl the Huntsman

The libretto of this beautiful operetta is founded upon Grimm's well known fairy story of Snow white. The musical part consists of charming solos, duos, choruses, etc. which, when combined with the picturesque costumes of the dwarfs, various flowers, chorus of forest children, and those of the four leading characters, as above, will form one of the most interesting and attractive performances which has ever been placed before an audience.

Ira D. Sankey.

On Thursday evening next March 12th at Shattuck Hall, the famous singing Evangelist co-laborer with D. L. Moody will conduct an Evangelistic Service Mr. H. J. McCoy will assist. The churches invite the citizens of Berkeley and the students both of University and High School to be present. This will be Mr. Sankey's only appearance in Berkeley. Disturbing The Peace.

Mr Peterson of Parker street felt himself aggrieved and hied himself away to a Justice of the Peace and swore to a warrant for the arrest of two men by the names of Cox and Larsen, The complaint is for disturbing the peace of the aforesaid Parker.

Deputy Marshal Kerns served the legal papers, on going before the Justice the defendants plead not guilty and demanded a jury trial. A jury was summoned and Justice James patiently heard what all parties had to say this afternoon.

The grounds around the Peralta Park Hotel are being put in order and are greatly improved.

The Board of Trustees will meet this evening in regular session, and will transact much important business.

"Kidnapped."

Manager Collins, of the Oakland Theatre is determined to keep the Oakland and Berkeley Theatre going public from spending their money in San Francisco. He has engaged the celebrated Bacon Theatrical Stock Company of New York, who come to Oakland after playing a very successful engagement of 100 nights in New York in the startling drama "Kidnapped." It will be given at this popular place of amusement commencing tonight, Monday, March 9th, and continuing all the week with a special matinee for children on Saturday afternoon.

It will be given with all the superb stage settings and mechanical and electrical effects.

Among them is the Brooklyn bridge from three different points of view, the hero's leap for life from it; the explosion in the McMooney cottage; the burning of the den of thieves; the escape from the roof; the kidnaping of the bride, in which a genuine hack and horses is brought on; the real police patrol wagon and horses, etc., always win hearty applause. In spite of the enormous expense and the excellency of the attraction an arrangement has been concluded whereby the public can see it at popular prices.

Runaway.

About lunch time today two horses attached to a gravel wagon got through feeding, and not being tied came to the conclusion that they would take some exercise on their own account. Starting from about Virginia street they passed into Shattuck avenue and thence proceeded southward. When near University avenue they thought it would be better to get on the car track and done so.

At this time the noise collected people along the street and somebody scared the horses off the track. Their speed continued to increase. Finally George Mohr ran to the rear end of the cart, jumped on and applied the brakes with such force that the team came to a full stop when about opposite the East Berkeley station. Fortunately no one was hurt nor was the team injured.

A New Roofing.

The climate of the Pacific Coast is probably more severe on roofs and roofing materials than that of any portion of the United States. Shingles warp and curl. Slates grow hard and brittle, flake off and blow away. Tin sweats and rapidly rusts out. Corrugated iron expands and contracts with the changes of temperature, till it is useless as a protection against the elements. Coal tar runs and clogs the drain pipes and gutters in summer, and crack and opens up in the cold of winter. It was to meet and overcome these difficulties and to furnish a perfect roof that P. & B. roofing was invented. During the recent storm that has swept over this part of the State, it reminds people that a good roof is something worth keeping over one's head.—Mariposa Gazette.

MURPHY'S BANK.

OF SAN JOSE CLOSED ITS DOORS THIS MORNING.

More Riots in Spain by Students Who Tried to Wreck the U. S. Consulate.

Special dispatches to the GAZETTE.

Murphy's Bank Closed.

San Jose, March 9.—The Commercial and Savings Bank of this city failed to open for business this morning.

On the door is posted a notice that the directors deem it best to close for a few days and that the depositors will be paid in full.

Bernard D. Murphy, one of the directors, last week gave a trust deed of valuable property to Donohoe, Kelly & Co. of San Francisco, and an absolute deed to another portion to Charles Fox.

He also mortgaged his ranch near Mountain View for $30,000.

The failure caused a big surprise here.

More Spanish Outrages.

Bilboa, Spain, March 9.—There was another anti-American riot here today. About 12,000 people took part. The excitement was started by young men at a street corner cheering every soldier who passed. Their conduct was imitated by other groups. Some musicians who refused to repeat the national anthem were hustled and beaten. Riotous groups then formed on the main streets cheering for Spain and denouncing the United States. The authorities did everything possible to maintain order. Almost the entire police force turned out, and the rioters were dispersed again and again.

Eventually, however, the mob became so numerous and excited that the police were almost helpless. After the first demonstrations of sympathy with the army, the crowd armed themselves with sticks and cudgels, the police were swept aside an immense crowds gathered on the leading thoroughfares and marched toward the residence of the United States Consul, shouting "Long Live Spain," "Down with the Yankees."

On the way to the Consul's residence they hurled stones through the windows of stores and private residences, overturned vehicles, pulled several mounted policemen from their horses and generally behaved in a most threatening manner.

Stores dealing in American goods received the most attention from the mob, and the windows of the Consul's house were badly shattered, although the police defended the building. The mob proceeded toward the United States Consulate, evidently intending to stone that building as well, but the authorities had taken the precaution to send a strong force of police to guard that building. Another detachment was stationed across the streets leading to the Consulate.

Therefore, when the mob neared the United States Consulate it was confronted by police with drawn swords. [illegible] vigorously with stones and bricks. A squad of officers then charged the rioters, and the latter fired pistols at the policemen, two of whom were wounded.

This caused the police to charge in a body, using their swords with good effect. The rioters were dispersed, yelling and hooting at the autorities and shouting "Down with the Yankkes, and "Long live Spain." The police, who made a number of arrests, experienced considerable difficulty in escorting their prisoners to the depot.

The United States Consul is now guarded by a strong detachment of gendarmes, armed with carbines, revolvers and swords, and instructed to protect the consulate at any cost.

THE ALASKA CRAZE.

That there is a large amount of gold in Alaska is not doubted by the best miners who have visited that section. Whether the dangers and hardships that have to be endured in order to secure this gold is compensated for by those who are seeking it in the frozen regions of the north remains to be seen. It is a fact that for many years past there has not been one in a hundred of those who have gone to Alaska in search of the precious metal that has been successful.

Within the past month there have been over 100 inexperienced young men leave Alameda County for Alaska to gather gold. None of these young men have ever done a hard days work in their lives and the hardships that they will have to endure before they reach the place where gold is supposed to be found will be very great. It is to be hoped that they will be successful, but the chances are that they will not be.

Each of these one hundred young men have expended on their outfit and taken with them not less than $500, or in round numbers $50,000. This amount taken from Alameda county is quite a sum these hard times, and especially when it is all going on a venture. Right here in California there is plenty of gold that only awaits the turning over of the ground, backed by a little capital to get it. In Sacramento, Nevada, Placer, El Dorado, Tuolumne, Amador, Butte and Mariposa counties, millions of dollars have been taken out, and this year the production of gold will be far greater than it has ever been before. These are mining counties, and although they have produced a large amount of gold in the past they have only been skimmed over. The gold is there and only awaits being taken out.

If these young men who have gone to Alaska had visited some of these counties above mentioned, with the amount of capital that they have taken to Alaska, and gone to work, it would not be long before they would become wealthy, for the gold is there and it only takes a little development to find it.

At the present times it costs money to hire miners to develop a mine and do the necessary work before the mine commences to produce and that is the reason why there are not more mines opened. If, however, these young men who have gone to Alaska or those who have now got the fever, would go to any of these counties mentioned, and secure some mining ground, have a first class practical miner for superintendent and a good assayer, and themselves become the miners, the cost of development would be but very little, and they would soon have property that would be sought after by capitalists, which they could sell to good advantage.

Capitalists are not developing mines. They wait until the mine has been developed to a certain extent and shows that it has got the precious metal within its confines, and then they are ready and anxious to purchase it. Our advice to the men both old and young, who are now casting their eyes toward Alaska, is to investigate the rich mining regions close at hand in your own State before passing over it and going to a country that you know not of, and where only hardship and misery aawits you.

There are thousands of mines in California that are only awaiting development in order to give their owners large fortunes, and they are all but a short distance from San Francisco.

FOR AN ELECTRIC RAILROAD

One of the principal things that is necessary for the further advancement of West Berkeley is an electric street railroad to Oakland. People residing in West Berkeley are now compelled to pay 10 cents each way to get to Oakland, if they go by street car to East Berkeley and thence by electric car. If they take the local train to Sixteenth street and electric car to Oakland it costs them fifteen cents each way.

This has greatly retarded the growth of West Berkeley and has tended to build up Fruitvale, Fitchberg and other places along the San Leandro road, at the expense of West Berkeley.

We say at the expense of West Berkeley for this reason, there are hundreds of people who would purchase lots at West Berkeley and build themselves little homes were they afforded rapid transportation.

Mr. Charles A. Bailey, one of the largest property owners in Berkeley, who has also a great deal of property in West Berkeley, has had the matter of connecting West Berkeley with Oakland by an electric road under consideration for some time, and he has at last found a way in which it can be accomplished, and he desires to meet the people of West Berkeley at the meeting of the West Berkeley Progressive Club tomorrow evening, when he will explain how soon and under what conditions the San Pablo avenue line will be extended to West Berkeley. He desires that all of the property owners and all interested in West Berkeley be present.

We hope that no one will stay away from the meeting tomorrow evening, and that there be at least three or four hundred citizens present, as this is a matter of great importance not only to the people of West Berkeley but to the people of every section of Berkeley, so let everybody turn out tomorrow evening and hear what Mr. Bailey has to say about the matter, and then lend him every assistance possible in order that West Berkeley may soon have an electric road making five minute trips within its confines.

D. O. Mills who has made millions of dollars in California, and who afterwards shook the dust of California from his heels and took up his residence in New York is going to build several large hotels in the tenement districts of New York. It would be much more to his credit if he were to expend some of his vast wealth in California, where he made it. He might build a tenement hotel in San Francisco, for the poor or he might endow the State University with a couple of dozen scholarships for deserving young men and women who are seeking a University education. It is nothing more than right that people who have accumulated vast wealth in California, should leave some of it here among our public institutions.

Assessor's Poll Tax and Road Poll Tax Notice.

Poll Tax and Road Poll Tax must be paid on demand.

Oakland, Mar. 2nd, 1896.

Notice is hereby given that the State Poll Tax and Road Poll Tax for two dollars each for the year 1896 is now due and payable at my office, Room one, Court House, or to a Deputy Assessor.

Sec. 3839 of the Political Code reads as follows:

Every male inhabitant of the State over twenty-one and under sixty years of age, except paupers, insane persons and Indians, must annually pay a Poll Tax of two dollars, provided the same be paid between the

First Monday in March and the First Monday in July,

then it shall be three dollars.

Sec. 3846 of the Political Code makes it the duty of the Assessor to demand Poll Tax of every person liable therefor, and on the neglect or refusal of such person to pay, he must collect by seizure and sale of any personal property owned by such person.

Under Sections 429 to 435 every person who refuses to give his own name or the name of any person in his employ, or who in any manner obstructs the Assessor or any of his deputies in the collection of the State Poll Tax, is guilty of a misdemeanor, and liable to a fine of $500 or imprisonment in the County Jail, or both such fine and imprisonment.

Only those persons under twenty-one or over sixty years of age are exempt. Poll tax must be paid on demand.

The same laws apply to the collection of Road Poll Tax as to the collection of State Poll Tax.

Diamonds.

Henry Ward Beecher took pleasure in the wonderful colors of precious stones. He cared for them not as jewels, but as crystallized dewdrops and sparks of living fire. Ruskin, too, is said to carry diamonds loose in his pockets, just so that he may take them out and flash them in the sunlight for his own delectation. And now the learned men have discovered what women have known always—that diamonds came down from heaven, for no power on earth was great enough to produce them. This is how scientists claim to have found out the truth we knew from the beginning. It seems that in South Africa experts have been puzzled finding in blue earth, the natural bed of the rough diamond, stones which had been fractured, and it was evident that no upheaval of the soil could have effected such result. Then the wise heads bethought themselves to see whether there were any traces of diamonds in meteoric iron, and sure enough such traces are said to have been found. So now all the world is ready to believe that there are really diamonds in the sky. Speaking of word pictures, where is there one which could bring the diamond more plainly into view than this?

Oh, the wonderful laughter of light!
Oh, the genius of color at play!

Oysters.

"When I was a boy," said the middle aged man, "nobody ever used to think of stewing oysters in milk, though I believe that barbaric practice did begin just before the war, but now almost everybody eats them that way, and they cook them that way in restaurants. It seems a pity. The oyster is not the least of the blessings vouchsafed to us, and why anybody should want to disguise its gamy and at the same time delicious flavor with milk I do not see.

"To stew oysters in milk is even worse than to dip them in batter before broiling or frying them, when but a thin coat of cracker dust is all that is required, and even this is likely to be dispensed with on broiled oysters by one who has eaten oysters broiled just as they come from the shell.

"But it should not be understood from this that batter can reasonably bear no relation whatever to the oyster; far from it. There is, for instance, the oyster fritter, certainly a very pleasant subject to dwell upon. But in this case the blessing has been added to the commonplace, not the commonplace to the blessing."—New York Sun.

Spurgeon's Points For the Preachers.

"Mind you avoid inappropriate texts," said Mr. Spurgeon one day to his college students. "One brother preached on the loss of a ship with all hands on board from 'So he bringeth them to their desired haven,' and another returning from his marriage holiday: 'The troubles of my heart are enlarged. Oh, bring me out of my distress!' Mind your figures of speech are not cracked. Don't talk like the brother who said, 'I fly from star to star, from cherry beam to cherry beam.' Get among your people or somebody may be saying of you, as one old lady said of her minister, that he was invisible all the week and incomprehensible on Sundays. Shun all affectation in the pulpit, and mind you never get into the goody goody style. One of this sort said, 'I was reading this morning in dear Hebrews.'"—New York Observer.

All the Comforts of a Home.

"By the way, your advertisement mentioned 'home comforts,'" said the young man in quest of lodgings to a Glasgow landlady.

"Yes," was the reply. "Ye see ye could get a seat wi's in the kirk. (My last lodger used to pay for the hale pew.) Then, t' keep ye frae wearyin in the evenin's ye cud gie the bairns a han wi' their lessons, for their ain faither's nae scholar.

"Aboot yer meals, ye cud just come down an get them in the kitchen—it wid be hamelike, ye ken. There's little Johnny, ye wid get him to sleep wi' ye. He's an awful kicker, but wid keep ye fine an hate thae winter evenin's."

Then, seeing her auditor making his way to the door, she hastened to add:

"I widna chairge ye onything extra for a' thae preevileges."—New York Herald.

The Tale Told of a Doctor.

Apropos of doctors' beards and microbes, a lady writes: "Several years ago I took the steam cars to and from school. For a week or more our family physician took the crowded noon train, always sitting very near me, and entering into conversation. On questioning his sister-in-law about his trips, she said: 'Oh, he has a smallpox patient at C., and is afraid to take his carriage for fear of communicating contagion. So he takes the train.' I always supposed his professional eye looked on me as a prospective smallpox patient."—Boston Transcript.

Unitarian Society Lectures.

Col. Greenleaf's lecture on Friday evening on "Humanity of the War" had an appreciative audience if not a large one. It is unfortunate for Berkeley that it does not seem to have the appreciation for an extra good entertainment of any kind.

The Unitarian Society has been endeavoring to please the community for sometime by giving public lectures and entertainments about the average in quality. It does not meet with the success that should be accorded to it. People will go Oakland or to San Francisco and patronize something of not one-quarter the merit and spend double the amount of money that it would cost to stay in Berkeley and hear something of value. As long as the taste of Berkeley people continues this way it cannot expect to have anything good in this line to come here.
